UNESCO's ICT Competency Framework and its applicability the Caribbean

CXC's Perspective

- UNESCO's ICT Competency Framework is one of the pillars of the reformation of the CXC® Learning Institute (CXC®-LI).
- CXC®-LI's products and services re-engineered to address ICT educational needs at Primary, Secondary, and TVET levels across the region.
- Three tiers of teacher education and professional development offered at three levels of teacher proficiency – **Early Starter/Novice, Proficient, and Expert**
- **PDU**s will be issued in **nano- and micro-credential** format on successful completion of training courses
