CARIBBEAN ARTIFICIAL INTELLIGENCE INITIATIVE

- UNESCO Caribbean Artificial Intelligence Initiative, established in 2020, explores the potential of AI in relation to Sustainable Development Goals (SDGs), in particular regard to:
 - Generating sustainable growth in the economies of Member States
 - Creating innovative and technology-oriented economies and societies in the region
 - Improving public education, information, public relations and advocacy, including on the ethical dimension of AI and data governance
 - Reducing inequalities in society
- UNESCO Caribbean AI Policy Roadmap
