JAMAICA

 **GLOBAL SPECTRUM
SERIES 2024**

 **Caribbean
Telecommunications
Union**
Shaping Caribbean ICT Development

CO-LOCATED WITH A CTU SMTF MEETING (16 MAY)

GLOBAL SPECTRUM SERIES 2024

Where the worldwide spectrum community meets

18th **EUROPEAN** SPECTRUM MANAGEMENT CONFERENCE

12th **AMERICAS** SPECTRUM MANAGEMENT CONFERENCE

9th **LATAM** SPECTRUM MANAGEMENT CONFERENCE

10th **ASIA-PACIFIC** SPECTRUM MANAGEMENT CONFERENCE

8th **SUB-SAHARA** SPECTRUM MANAGEMENT CONFERENCE

7th **MENA** SPECTRUM MANAGEMENT CONFERENCE

The Global Spectrum Series addresses some of the hottest Spectrum management related topics. By inviting a balanced representation of governments and industries of various regions of the world, participants profit from an open discussion and acquire a broad view of the subject matter.

Mario Maniewicz, Director, BR, ITU

2023 series: **1,458** Unique attendees | **135** Countries Represented

GLOBAL SPECTRUM SERIES 2024

Where the worldwide spectrum community meets

What can I expect?

- 2 days of interactive discussion – a format designed to complement ITU meetings and CTU SMTF meeting
- 150-200 attendees (and 50+ top level speakers) from across the Caribbean region and beyond
- Dedicated networking events (speaker & VIP pre-conference dinner + gala drinks reception)
- Neutral and balanced platform - key partner organizations incorporating a wide range of different industry and policy stakeholder groups
- Opportunity to keep up to date with latest regional & global spectrum policy issues, share best practice and to network with peers
- Free to attend for all

Proposed topics

- Outcomes from WRC-23 and impact for the region
- Coordinating spectrum policy across the Caribbean region
- Maximising the value of key UHF and mid-band frequencies – 700MHz, C-band, 6GHz and more
- Meeting the spectrum requirements of 5G and evolving technologies
- Connecting the unconnected
- Meeting the spectrum needs of an evolving satellite sector (including direct-to-device)
- Aligning spectrum policy with broader economic and social development goals
- Licensing, allocation, assignment and pricing of spectrum
- Managing spectrum in small island states – specific challenges and best practices

...but we want to hear from you!

Get in touch, and get involved!
Speaker, sponsors and partner opportunities available
